

International Sales Manager

Mind4Energy is a fast-growing player in the market of control of large solar PV installations. Our solutions contribute to efficient operation of solar parks and to the smooth integration of renewables in the existing electrical grid. We are currently looking for a **Sales Manager** for our international expansion.

Job description

- You will be responsible for sales development at an international level. This involves introducing Mind4Energy's products and services to BRPs, energy aggregators and renewable energy generators.
- You should be able to present our solutions at a technical and commercial level and you will close deals.
- You work closely with and report diligently to the Sales Director.

We are looking for a person with the following competences and skills

- You have the ability to present Mind4Energy's products and services at a detailed technical level, to understand the client's needs and to draft convincing proposals.
- You will focus on the company's objectives and you have the ability to close deals.
- You have experience in the world of energy trading, energy aggregation or energy generation.
- Knowledge of PV systems and their KPI's would be a plus.
- Full professional proficiency in English is required. Good knowledge of Dutch and other languages would be a plus
- You are prepared to travel frequently.

Our offer

An exciting and **challenging** job within a dynamic team, in a **high-tech, innovative and international context** in the fast growing **renewable energy** market.
